

Certificate of Compliance

Certificate Number:

UL-US-2433357-0

Report Reference:

E541626-20240829

Issue Date:

2024-09-03

Issued to:

JZPE POWER TRANSFORMER (JIANGSU) CO., LTD.
No.79, West 17 Group, Jintan Village, Yuxi Town, Jiangyan
District, Taizhou City, Jiangsu Province, China Taizhou, Js
225500
China

This certificate confirms that representative samples of:

XQNU - Transformers, Power, Liquid-filled Type

See Addendum Page for Product Designation(s).

Have been evaluated by UL in accordance with the Standard(s) indicated on this Certificate.

IEEE C57.12.00, 1st Ed., Issue Date: 2021-11-09

Additional Information:

See UL Product iQ® at <https://iq.ulprospector.com> for additional information.

This Certificate of Compliance indicates that representative samples of the product described in the certification report have met the requirements for UL certification. It does not provide authorization to apply the UL Mark. Only the Authorization Page that references the Follow-Up Services Procedure for ongoing surveillance provides authorization to apply the UL Mark.

Only those products bearing the UL Mark should be considered as being UL Certified and covered under UL's Follow-Up Services.

Look for the UL Certification Mark on the product.

David Piecuch
UL Mark Certification Program Manager

Any information and documentation involving UL Mark services are provided on behalf of UL LLC (UL) or any authorized licensee of UL. For questions, please contact UL Solutions Customer Service at <https://www.ul.com/contact-us>.

CERTIFICATE OF COMPLIANCE

Certificate number UL-US-2433357-0
Report reference E541626-20240829
Date 2024-09-03

This is to certify that representative samples of the product as specified on this certificate were tested according to the current UL requirements.

Model	Product Description
SABCDEFG-XXXXXX/YYY.YYY/ZZ.ZZZ series, where S represents three phase, A represents Insulation type, maybe blank represents Liquid type. B represents Insulation oil type, maybe blank represents mineral oil. C represents External Cooling method, may be blank represents nature cooling, F represents force cooling. D represents Winding number, may be blank represents two windings, S represents three windings. E represents Voltage regulation method, maybe blank represents de-energized, Z represents OLTC. F represents Winding Material, blank represents copper. G represents Core material, blank represents electrical grade steel. "XXXXXX" maybe 750~110000 which represents the rated power 750~110000 KVA, "YYY.YYY" maybe 72.000~121.000 which represents the rated Hv voltage 72 KV~121 KV, step with 1 V, /"ZZ.ZZZ" is optional, maybe 0.12~34.5 which represents rated Lv voltage 0.12 KV~34.5 KV, step with 1 V. (X or Y or Z may be blank).	Three phase Liquid-Immersed Power Transformers
